

# CausePilot

The Fundraiser's Management Software

**We empower fundraisers, with exceptional tools,  
to maximize good works throughout communities.**

Because we believe that good people can do exponentially more with great tools.  
You may climb aboard for one of our cool components, but you'll stay for the rest.  
Use CausePilot to inspire creativity and increase donations.

Take the controls. Shine a light on your mission and let CausePilot help you bring in your next fundraiser for a smooth landing.

## > The Frontend

*What supporters see*

Supporters see an impressively professional website where they can buy tickets, make a donation, or participate in one of your many fun events like an auction.

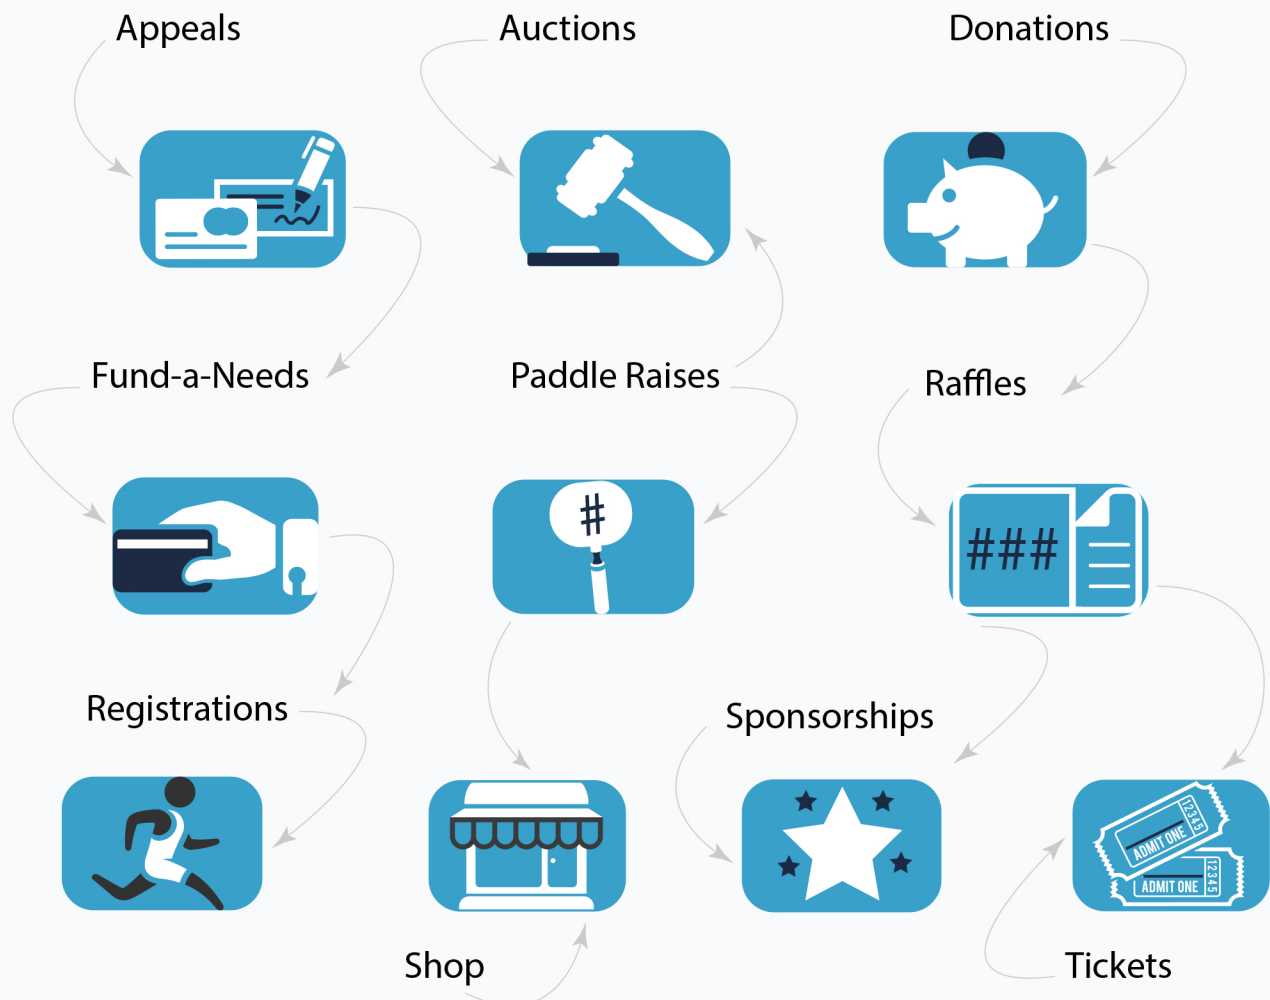

## > The Backend

*Where you manage*

You have every management tool at your disposal to get a fundraising campaign or event off the ground in minutes. Then manage the process from beginning to end.

## Make the most of every giving opportunity

Flexible components that work together or independently.

With any fundraiser, there's the idea, and then there's the work. CausePilot can help you create, organize, and manage all of the details with ease.

## Next level bonus components

Makes the management process easier

**Leaderboards**  
Display activity

**Procurement**  
Item donations

**Sign Ups**  
Volunteers

## Everything you need in one place

Means your next fundraiser will soar

### Messaging

Automated email and text messages keep supporters engaged and informed. Templates can be customized to add your own brand personality and content. Schedule and send custom emails and text messages to supporters whenever you like.

### Contacts

Automatically keep track of supporter's participation and activities. Manage companies that contribute auction items, in-kind donations, and sponsor your campaign or event. This information is easily downloadable to upload to your CRM or sync.

### Financials

Make it easy for supporters to give via credit card, cash, or check. Manage all transactions from pending to paid. When credit cards are required to participate, the closing is a snap. And, create on the fly invoices when there's a extra charge like shipping.

### Reporting

View and/or downloadable spreadsheet style reports, with the data you need, ready to use however you see fit. Open with Excel or Numbers and create reports that help your accounting department quickly reconcile and close the books.

CausePilot's pricing is strategically designed with your best interest in mind. Our goal is the same as yours...raise as much as possible. There is a plan to fit any budget and options to ultimately use CausePilot for free. You can't beat that!
